With your help we are providing
hope beyond the crisis!

You're the
best to us!

I have hope!

Becky was 28 years old and expecting her first child. She came to our Safe Sleep Class alone. She thought someone would be there with her, but her boyfriend was no longer involved. Sitting by herself, she was nervous, unsure, and wondering if she would be a good mom. At one point, she began to cry. We reassured her that simply being there showed how much she already loved her baby. We reminded her that she was not alone and that we would walk alongside her. You could see the change. She started asking questions, leaning in, and gaining confidence. By the end of the class, Becky left with a portable crib, fitted crib sheet, sleep sack, and a baby shower basket filled with essentials. But more importantly, she left knowing she was not alone and with hope for the journey ahead.

I'm so thankful that my baby
has a safe place to sleep.
